### EDUCATION

#### Computer Engineering

Kutahya Health  
Science University

2023-2027

### Reference

(available upon request)

Mustafa Kurt

*Huawei Cloud*

**Engineering Director**

Murat Karaselcuk

**Senior Devops**

**Engineer at Huawei**  
*Cloud*

### Language

- English *Advanced*
- Turkish *Native*

### About Me

I am a Computer Engineering student with hands-on experience in **cloud technologies** and **DevOps** practices. During my Huawei Cloud internship, I worked on projects using **Terraform, Kubernetes, Docker, Linux, Prometheus, Grafana, ELK, and Istio**. Along with my previous **AWS Cloud experience**, I have practical knowledge in designing CI/CD pipelines and automation processes using **Jenkins** and **GitHub Actions**. I possess the technical skills to work in areas such as system monitoring, container orchestration, and infrastructure automation.

### Intern

#### CLOUD & DEVOPS INTERN

Huawei Cloud | 2025 July 10 - August 21

- Developed cloud projects using Terraform, Kubernetes, Docker, Prometheus, Grafana, ELK, and Istio.
- Implemented CI/CD automation with Jenkins and GitHub Actions.
- Managed resources and monitored systems on Huawei Cloud.

### Certificates

#### HCCDA-Tech Essentials

Completed foundational training on Huawei Cloud, covering core services, cloud architecture principles, and hands-on labs for resource management and deployment.

### Technical Skills

**Containers & Orchestration:** Docker, Kubernetes, Istio – Containerized application management.

**OS & Scripting:** **Linux**, Bash – Server management and scripting.

**Cloud Platforms:** **Huawei Cloud, AWS** – Cloud resource management and service deployment

**Monitoring & Logging:** Prometheus, Grafana, ELK – System monitoring and log visualization.

**CI/CD & Automation:** **Jenkins, GitHub Actions, Terraform** – Pipeline setup and automation.
